EXPERIENCE

Contify, Gurugram — *Software Developer*

MARCH 2022 - PRESENT

Net Promoter Score
Built Net Promoter Score inside Newsletters which lets the Analyst team know whether the Newsletters they are sending to the clients are useful or not. It served the purpose well as our engagement with clients has increased by 30% and become more insightful.

Dashboard Widgets
Build widgets based on various filters needed by the clients like All Updates and Key Updates.
It increased the engagement of the users with dashboards by 20% as they get the consolidated data related to their competitors selected by them in a single screen. It also helps in saving lots of analyst time.

Dashboard as Home Page
Set the workspace of a dashboard as Home Page. Small change, big Effect! As the company is scaling, we are trying to consolidate every important data to the dashboard/workspace. Setting the same as the landing page has made the work easier and helps retain the clients.

Bulk Download Dataset
Downloading more than 2000 data in an Excel sheet throws a Time Out Error. So, made a cron job for it. As the process became asynchronous, the problem gets solved.

RARR Technologies, Faridabad —*Software Engineer*

OCTOBER 2019 - SEPTEMBER 2020

Smart Detect
It is a Perfios clone, a Bank Statement Analyzer. Build the backend part ie. Read the PDFs, Extracted data, and stored it in the database. It took 6 months to read 6 banks' statements.

Facial Recognition
Created a POC using openCV within a month.

DRDO, Delhi — *Student Intern*

SUMMER-2019

Employee Management System
Prepared database architecture for storing each employee's company-specific data and implemented the same using My SQL and JAVA MVC.

LANGUAGES & TECHNOLOGY

Python, JAVA, C++, C.

Linux, Windows, Android.

MySQL, PostgreSQL, ElasticSearch.

Django, Juypter Notebook.

Jira

EDUCATION

MVN UNIVERSITY – PALWAL
JULY 2016 - MAY 2020
CGPA: 9.12

AWARDS & CERTIFICATIONS

Got Excellence Award for Smart Detect in RARR Technologies for extraordinary performance.

Big Data Foundation – Level 1

Build Your Own Chatbot – Level 1
